

“Springy” Coffee Filter Art

Supplies:

- Paper coffee filters
- Water-color paints and brush (if you don't have paints, you can use markers and then spray with water)
- Cup of Water
- Paper plate, newspaper, or tray to dry on
- Scissors
- Clothes pin
- Pipe cleaner

Directions:

Painted Rainbows:

Rainbows are red, orange, yellow, green, blue, purple.
We're going to start in the middle with purple and work

our way out to the edge with red...and set aside to dry. When dry, fold in half to create your rainbow.

Easter Eggs:

To start, we're going to cut our coffee filter into an egg shape. Then, paint the egg any color you want. Set aside to dry.

Butterflies:

To start, paint your coffee filter any colors that you want. You can do dots, squiggles, lines, any design, then set aside to dry.

When the coffee filter is dry, scrunch the middle of it into a butterfly shape and secure with a clothespin. Cut a small length of pipe cleaner, then fold it into a V shape to make antennae for the butterfly. Slide the pipe cleaner into the clothespin.
